Overview

Follow-Up Column enables due date flags similar to Outlook follow-up functionality. Applying of flags to the list item allows adding of visual reminder in a natural way. Such feature releases from necessity of keeping in mind routine things like "What I have to do today" or "What I will need to finish in next two weeks". Users can also use different calendars like Gregorian, Japanese Emperor Era, Korean Tangun Era, Hijri, etc. Follow-Up Column supports two-way conversion between ArtfulBits Follow-Up and standard SharePoint Date and Time column.

Why ArtfulBits Follow-Up Column?

Main purpose of Follow-Up Column component is items flagging with due date option (messages, meeting request, tasks, events, etc). Follow-Up Column is useful for great Outlook experience enhanced by integration with SharePoint lists.

How to Use

To use Follow-Up column you must select appropriate option in the list of available columns in the Create Column page. In the Follow-Up Special Settings section you can change default settings in order to adjust column mode to your needs. You can display only status image (flag) in the display form and list view form and can add the description mode (date, text, text and date). You can choose whether show completed items or not.
